

This policy states the commitment of Bronx to embrace environmentally friendly practices to ensure we produce quality products with consideration to the environmental impacts of these practices.

Bronx is a multi-award winning builder, developer and placemaker. The Bronx brand promotes environmental sustainability in every aspect of the business; from internal procedures that promote good environmental practices, to engaging with subcontractors and stakeholders who share these same values.

To achieve our Environmental objectives, the following commitments have been made:

- Ensure high levels of management and staff involvement in achieving stated objectives.
- Use suppliers, wherever possible, who have similar environmental objectives as ourselves and give preference to environmentally friendly products and equipment when procuring.
- Always weigh the environmental benefits of a product equally with its price and safety benefits.
- Continuously improve the Business Management System.
- Becoming a paperless organisation to an extent that is practicable for the organisation.
- Prevent pollution, protect the environment, and minimise waste generation where appropriate and relevant to the type of work we undertake.
- Provide solutions that minimise excess materials and wastage.
- A commitment to protection of culturally sensitive and heritage sites.
- Identify and fulfill legal, statutory and compliance obligations applicable.
- Measure our performance and use this information for the continual improvement of our services, environmental performance, and Management System.

We maintain and continuously improve a Business Management System that complies with the requirements of ISO 14001:2015.

Bronx's Environmental Policy is applicable to our Managing Director and employees. It expresses our ongoing commitment to understand, abide by, and regularly review these key principles and actions.

Ciaran Goodman
Managing Director
